## MATERIAL WARRANTY FOR EAVES GUTTERS AND DOWNPIPES

### RESIDENTIAL APPLICATIONS

BlueScope offers a warranty with respect to COLORBOND® steel for corrosion to perforation by weathering in the natural elements for a period of up to 20 years from the date of installation\*. BlueScope also warrants that the paint system on COLORBOND® steel will not flake or peel due to natural weathering for a period of up to 20 years from the date of installation\*.

Where COLORBOND® steel, stainless steel and COLORBOND® Ultra steel are used in their recommended environments, the above warranties will apply for a period of up to 12 years for the date of installation.

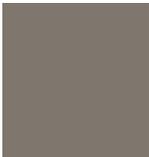

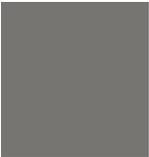

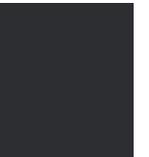

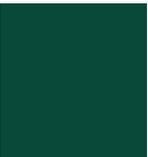

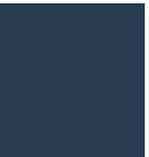

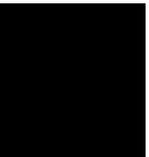

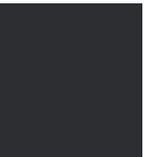

For residential eaves gutters and downpipe applications BlueScope also offers a warranty against corrosion to perforation by weathering of unpainted ZINCALUME® steel in the natural elements for a maximum warranty period of up to 12 years from the date of installation.

For more information on BlueScope material warranty, simply visit [warranties.bluescopesteel.com.au](http://warranties.bluescopesteel.com.au)

\*For installation greater than 1km from salt marine influence. Disclaimer: Warranty terms and conditions apply. Warranties are not available for all products and applications. The duration and terms and conditions of available warranties vary according to product use and application. The warranty does not apply to fascia or box gutter applications.
